Alyssa Alhadeff, a former Woodcliff Lake NJ student and avid soccer player, lost her life in the horrific events on February 14th at the Marjory Stoneman Douglas High School at just 14 years old. She was loved by all who knew her. Alyssa loved soccer! She loved life!

Before moving to Florida, Alyssa spent her formative years playing soccer on the fields of Bergen County and trained in the Superdome along with her younger brothers. With her beautiful smile, big heart and competitive spirit, she represented the best in all our children!

The Superdome will be hosting a Community Night filled with fun sports and activities, special classes and clinics, and great food and merchandise for sale. The entire facility will be offering sports and activities for everyone, parents and kids!! We choose to #LiveForAlyssa by celebrating the way Alyssa lived life to the fullest.

**Come join us for a night of great fun and remembrance celebrating Alyssa and all the children of all our communities!**

March 18th will be a special night! Alyssa lived life to the fullest. I was privileged to be her youth soccer coach for several years and later watched with great pride as she grew into a special young woman. She flourished in Florida, a freshman in high school and a great soccer player on a wonderful Club team. And in a blink, she was taken from her family so unfairly. She represented the best in all of us, the best in all our children.

Alyssa loved life. She loved soccer and she love her teammates. We want to honor her passion for life with a special evening at the Superdome. It will be a great time for everyone as we celebrate her and the lives of all the children of all our Communities. We welcome everyone from any town and, any community to come join us on **March 18th, from 5:30pm to 8:30pm at the Superdome!**

My wife and I have dedicated the entire facility to the event. We'll have nearly 80,000 square feet of field turf for exhibitions and events, massive bounce houses and obstacle course, sports like soccer, volleyball, bubble ball, relay races and other sports. We have party rooms where we'll have Arts & Crafts classes, Dance classes and other special activities! We have food and merchandise for sale. We have special exhibitions planned. We have several professional athletes (Phil Simms, NY Redbulls, Sky Blue FC, NYCFC) and other celebrities expected to attend! And 100% of all registration fees and monies from sponsors and vendors will be donated in Alyssa's memory to a 501(c)3 which Alyssa's family has created to help keep our children safe! **Make Schools Safe, Inc!** We welcome any additional donations and contributions!
